

———— Agile Coaching Training ————

“If you want to build a ship, don’t drum up people to gather wood, divide the work, and give orders. Instead, teach them to yearn for the vast and endless sea.”

- Antoine de Saint-Exupéry

 **2 days (14 hours)**

 **Up to 8 participants**

Training goals

Analyze your needs, train each participant to implement agile tools in your company.
Provide your team with the will and the tools to bring a project to success.

Detailed contents

After being introduced to agile values and principles, your team will “play” to Lego4Scrum, a serious game that helps your team bond by simulating mini-iterations on a project. This serious game will be followed by a brainstorming session, a Sprint Review, and a Backlog creation workshop. During these activities, your team will analyze your project’s strengths and elements to improve, and learn how to apply agile methods with your project.

Program:

1. Agile Roles and events

2. LEGO for Scrum : *Serious game* about implementing SCRUM

- Teaches what is expected of each role
- SCRUM events example practice
- Debrief about SCRUM experience

3. Brainstorming: how to apply agility in your company

- Organisational structure and its barriers
- Adapting to everyone’s constraints
- Finding the right methodology meets everyone’s expectations and constraints

4. Coaching about Review + Retrospective events of the previous Sprint

- Participate to the demo of the real sprint that just ended

6. Coaching about Sprint Planning event

- Participate to the next sprint’s Planning

5. Backlog creation workshop (*Product Team*)

- How to create a Backlog, as a Product Owner
- How to create *User Stories*
- Review by developers to find the best way to discuss about a feature

7. Brainstorming and conclusion

- Identifying remaining barriers
- Define a course of action

Prerequisites:

This training is designed for either **development** teams or **management** teams.

If the training is held in the Client's premises, we require for the Client to provide a **separate room** for the training to take place, big enough to accommodate all participants and the trainer, for the whole duration of the training. A **video projector** or **wide screen TV** must be provided so that the participants can see the trainer's laptop computer screen. A paperboard or white board would be much appreciated.
